Justification

Information Supporting Selection as a Hot Spot:

Past inspections have indicated large volumes of small trash items. Past enforcement conducted of properties in an attempt to reduce trash loads in the waterway. Recurring public complaint calls regarding high trash volumes in the waterway.

East Creek Slough is located in the lowest portion of the Seminary Creek Watershed prior to the discharge into the San Leandro Bay Estuary. Past assessments of the properties have indicated that large volumes of small trash items exist in East Creek Slough. Sources include the Oakland Swap Meet, California Highway 880, and flows from upstream areas.

Planned Cleanup Efforts:

Property Owner Routine Cleanups (as needed and after events), Alameda County Flood Control performs scheduled cleanup and maintenance of their property.

Assessments: To be conducted during Summer 2010
